

# EuroShuttle

## Equipment solutions

**The Edgetech EuroShuttle is designed to meet your specific glass shop needs including:**

- Hand-held pneumatic tool for a continuous process
- Spacer width adjustment can accommodate sizes from 3/16" to 15/16"
- Fixed setback distance for straight-line application
- Single blade for corner forming and cut-off without material removal
- Replaceable wear plate
- Delrin and Aluminum construction for durability

 **Edgetech**

BETWEEN YOU AND THE ELEMENTS.
