

Suction Table - 60" x 60"

Equipment solutions

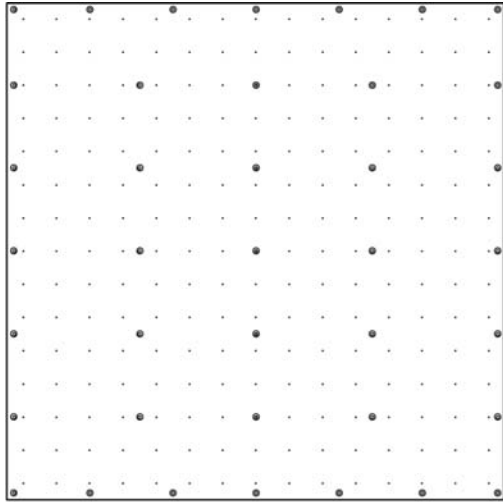

The Edgetech Suction Table is designed to meet your specific glass shop needs including:

- 60" x 60" application surface
- Air flotation for easy glass movement
- Reverse suction ensures positive glass holding during application
- Replaceable Arboron top surface for extended wear
- Grid surface (3/4") for easy muntin installation
- Aluminum extrusion air chamber to provide level surface and high strength
- Foot pedal controls for easy hands-free operation
- High quality blower provides air floatation and vacuum
- Adjustable leveling feet to match existing equipment height
- Quick disconnect air fittings for spacer application tools

Suction Table - 60" x 60"
