Equipment solutions

The Edgetech Air Float Table is designed to meet your specific glass shop needs including:

- Large 84" x 84" surface to handle a wide range of glass sizes
- Air flotation for easy glass movement
- Reverse suction ensures positive glass holding during application
- Vacuum cup rotates and traverses for easy glass manipulation
- Disc brake system allows for positive glass holding during application
- Friction brake locks traverse movement during application
- Replaceable Arboron top surface for extended wear
- Replaceable wear strip around vacuum cup slot
- Aluminum extrusion air chamber to provide level surface and high strength
- PLC for reliable control
- Foot pedal controls for easy hands-free operation
- High quality regenerative blower for efficient air flow and greater vacuum
- Adjustable leveling feet to match existing equipment height
- Three operating modes
 - Vacuum Cup
 - Vacuum Table
 - Vacuum Cup and Table
- Quick disconnect air fittings for spacer application tools
