

Swift Shop Table

Equipment solutions

The Edgetech Swift Shop Table is designed to meet your specific glass shop needs including:

- 24" x 36" application surface
- Rotating top can be locked in any position for spacer application
- Center mounted vacuum cup
- Integral rotary bearing and brake unit allows for smooth operation and positive positioning
- Foot pedal controls for hands-free operation
- Round top edge reduces spacer and hose snags
- Aluminum extruded frame construction
- Leveling feet for easy height adjustment
- Quick disconnect air fitting for spacer application tools
