

Europe's largest car dealership installs nearly 29,000 feet of Edgetech's Super Spacer®

For more than 20 years, Edgetech I.G. has been revolutionizing the insulating glass window and door industry across North America with Super Spacer®. Edgetech continues its success in the states and has seen amazing growth with Super Spacer overseas – and has some terrific success stories to tell.

> > For instance, in March 2007, Edgetech helped Greenberg Glass complete a three-month project to create the largest car showroom in Europe. The new \$14.5

Beryl Greenberg of Greenberg Glass in Scotland said, "As commercial glazing specialists, large projects like this aren't unusual for the company. We've worked on several car showrooms for Arnold Clark before, but it's great to be involved in supplying the biggest showroom in Europe."

The showroom incorporated 28,852 feet of Edgetech's Super Spacer and utilized more than \$776,000 worth of aluminum curtain walling, automatic doors and insulating glass units.

with .35 inches of Planibel G, measuring 11.8 feet x 7.9 feet.

Greenberg said the commercial sector demands superior performance and each project comes with its own unique demands on manufacturing and installation. For this reason, the company specializes in made to order glass units. Greenberg wants to offer the next generation of products to ensure it continues to win the right kind of contracts.

“...the commercial sector demands superior performance and each project comes with its own unique demands...”

million, three-story-high showroom, located in Glasgow's regenerated dock area, marks the latest stage of expansion by Arnold Clark, Europe's biggest car dealer. The showroom houses 350 cars at all times and on the first day of trading, the branch sold 261 cars.

The first type of unit was composed of .25 inches of laminated glass, .63 inches of argon-filled Super Spacer, and .25 inches of Planibel G at an average size of 6.5 feet x 7.9 feet. The second type was composed of .35 inches of laminated glass, .55 inches of argon-filled Super Spacer,

"That's one of the reasons we chose Super Spacer, which is far superior to any other warm edge technology," Greenberg said. "Edgetech is a phenomenal marketing machine that provides Greenberg Glass with the solutions to keep our customers happy." 

Our customers manufacture ENERGY STAR® qualified windows and doors with Edgetech's TrueWARM® edge spacer system.
